

My Success Story

It is my honor and privilege to give back to the addicts who are still suffering in their addiction. I am 49 years old and have been an active user for over 35 years. There wasn't any length I wouldn't go to get my drug of choice which was crack cocaine. I robbed people, homes and sold drugs just to get "one more" and found myself in and out of county jail and in prison 8 times. During my last prison term I was relocated to the Salvation Army in Chicago and from there I came to stay at Claudia and Eddie's and have been here 2 years. I have over 2 years clean, have regained my self-respect and pride and have been working for over a year. This is just a small glimpse of my life before and after recovery to help someone who needs to hear my story so they can see there is life after addiction and it comes in the form of NA and a great recovery home like Claudia and Eddie's Place.
