

My Success Story

After being in my addiction for over 25 years, having to sell my body, steal and lie for one more; I lost a lot of years due to my using. I have been incarcerated so many times I have lost count and I also went to the joint twice for hustling drugs to support my habit. By the grace of God and the help of Claudia and Eddie's Recovery Home, I sit here today clean and sober. I now have an I.D., something I didn't have in 25 years. I have a relationship with my family and kids, today they call me mom and not "Angie". I can go to my family's house without being watched and today my word means something instead of empty promises that always end up being broken. I have choices and I do things because I want to, not because I have to support a habit. I know anything worth having is worth working hard for and I work hard for my recovery today and not just "one more" I owe that to my Higher Power and all the help and encouragement from Claudia and Eddie's house and the NA program.
